RE: THE CITY OF EAGLE LAUNCHES NEW WEBSITE

We are pleased to announce the launch of a new and revitalized website for the City of Eagle. The new site offers a fresh new look and easier navigation. We are now using a responsive design which means you'll find the same information and essentially the same look whether you're using your desktop, tablet or smart phone.

Our main goal in designing this site was to offer you, the user, a quicker, easier way to find the information you're looking for. Whether you are a resident of Eagle searching for community events or a business that is looking to streamline the forms and permits you need to continue to grow, we hope you will find the new site intuitive and gives you a unique experience in Eagle.

Feel free to browse! The new site gives better access to departments and staff members dedicated to serving you. Scroll the bios of your elected officials or submit a concern.

Among the newest features, if you are a regular user of the website, you can now create an account and customize the pages, forms, and links that are most important to you. Give it a try!

The *Search* feature has been enhanced to help narrow the time you may be putting in looking for a document or information.

We're confident you'll find the information you're looking for very easily. We welcome your feedback as we continue to work on improving the experience of our users and community members.
