An extension of time limit for an approved conditional use may be granted by the City Council, at its sole discretion, without further notice and hearing, if the following findings are made:

1. There are no outstanding city code violations or conditional use permit violations on the subject property. If such violations exist, they may be conditions by the City Council to be cured as a condition of the extension of time;
2. The conditional use, as previously approved, remains in the best interests of the health, safety, and general welfare of the city;
3. There have been no significant changes to city code between the date of conditional use approval and the date of the time extension request that would require substantial modifications to the project;
4. There are no hazardous conditions which have developed or have been discovered on the project site; and
5. The public facilities and services required for the project remain adequate;

The City Council reserves the right to revoke the extension of time approval if it finds that any of the criteria herein are not met.

This section does not limit the number of extensions the City Council may grant to an application so long as the criteria set forth in section 8-7-3-5 (G)(1)(b) are met. Nothing in this ordinance requires the city council to grant any extension of an approval period.
